

INFINITE POSSIBILITIES

 **PTIMUM
INFINITE**

Hyper Dk Material Designed
for Scleral and Ortho-k Lenses

Optimum Infinite is a hyper DK gas permeable material that offers hyper oxygen permeability (180 Dk) without impacting on flexure, it also provides excellent wettability and is durable during lens handling and wear.

Hyper oxygen
permeability (180 Dk)
to support corneal health

Increased modulus
to reduce flexure

Inherently wettable
to support lens wear
